

EXPLANATION

- OPEN WATER
- WETLANDS
- PASTURE
- CULTIVATED
- FOREST
- URBAN
- STRIP/MINED

Land use and land cover digital data provided by TVA (Frank Stigma, TVA, 2008) were derived from the National Wetlands Inventory (NWI) and National Wetlands Inventory (NWI) (from period 1984-92) and ground truth data were inferred from aerial photography. Boundaries for certain land use classifications (urban and wetland areas) were digitized from topographic maps.
